This one is a hidden gem! I looked for a place that was clean, private, and easy to get to that wasn't expensive. I found it on the first try. The staff was very pleasant and patient to explain their specials, location, and tanning instructions. I had no problem finding it. The area was a comfortable place to park. The salon was really nice and cozy inside. I loved it and felt really special being there. The tanning packages are irresistible and affordable. Plenty of beds! I look forward to going back!

Best tanning salon I've ever been to! The salon is colorful and fun, exactly what a tanning salon should be. Every time I go in (which is several times a week) the facility as well as beds are clean and well maintained. The staff is extremely friendly and helpful. They sell a bunch of different lotions and the girls that work there are very knowledgeable about each one, they can even tell you which one smells the best! When you go in definitely try the Sundazzler stand up bed. It gets me so dark, and you can even play your Ipod in it while you tan! I suggest the Gold membership - it's the best deal plus you get discounts on lotions, moisturizers, etc.

I was so happy to get a card in the mail for a weeks tanning with the purchase of a lotion- was skeptical at first- but when I went in the salon the attendants were so friendly and helpful- the salon was clean and nicely decorated. Everything was explained to me from the type of beds to the packages and the other services. I have gone in at different hours during the day and everyone I have encountered has been just as pleasant. I was able to speak with the owner who took a great deal of time discussing his salon and asking for feedback, a refreshing quality of business management and customer service. I would definitely say they have won me over and I am happy to give them my business- I could only wish that other businesses would take the same type of pride in their service.

I am a "seasonal tanner". I always get "spring fever" around March and it usually runs through the end of summer for me. I visited SunBright through the recommendation of a friend, and even though it is a bit of a trek considering I live in Woodbridge and am moving to Springfield, and believe me it is definitely worth it. Angie is so sweet and answers my questions always with warm smile. The place is so clean and I got a great base tan in 3 visits-just as she said I would. AMAZING!!!! I love this place.

All I have to say is WOW! There was a tanning salon at this location for years that was just horrible in every way before they just closed without notice; needless to say, I was very leery about ever trying out this new place. I am sooo glad I gave it a chance!! SunBright has a beautiful facility, the staff is always ready to help with anything and they do massages, too!! My husband and I are now regulars here and will be for years to come.
